

About IntoEdVentures

Funded in 1989, IntoEdVentures is a non-profit, exchange organization and a designated United States Department of State sponsor for both the Academic Year Program and the Summer Work and Travel Program.

Our mission is to encourage the development of mutual awareness, respect, concern and trust among people from various nations. What a great goal to have as our standard of operation in bringing people of the world closer.

At a glance - Summer Work and Travel Program

The Summer Work and Travel Program is designed to allow foreign college and university students the opportunity to live, work and travel in the United States for a maximum period of 4 months, but within the limits of their official annual summer vacation.

Students will have the opportunity to experience life in the United States by sharing its tradition and culture through short-term work, an experience that is very different from that of a tourist.

.....

Thank you for a Great Summer that I experienced with the exchange students. We all had a great time. The students all had a great work ethic and did everything that they were asked. The permanent crew also enjoyed their company and many of them became good friends as well. We had one happy family.
